RULES OF EVENTS:

These rules are provided by Equestrian Australia. See the website for more details:
<http://www.equestrian.org.au>

A **SUPER PHASE** has 2 phases that you complete both on regardless on faults in the first phase. If clean in the 1st phase then you go against the clock in the 2nd, if you have rails you still can complete the second phase with no score.

A **TABLE C** speed class is one round against the clock. Faults are penalized by adding to the time taken. Each fenced knocked down is 4 seconds added. A disobedience with knock down or displacing of the obstacle incurs a time correction of 4 seconds. Three disobediences are allowed when the competition is under 1.15m.

A **TOP SCORE** has a certain number of obstacles are set up in the arena, each obstacle carrying points from 10 to 120 according to its difficulty. Obstacles are built so they can be jumped both ways. The athlete is credited with the number of points carried by each obstacle that he has jumped correctly. No points are awarded for an obstacle knocked down. Each athlete has 45 (minimum) to 90 seconds (maximum). During this time, he may jump all the obstacles he wishes in any order and in any direction. Each obstacle may be jumped twice. He may cross the starting line in either direction. Ringing the bell declares the end of the round. The athlete must then cross the finishing line in one direction or the other to allow his time to be recorded.

Joker: An obstacle may be provided as part of the course, duly marked by flags and titled "Joker". The Joker may be jumped twice; 200 points are awarded each time this obstacle is jumped correctly, but if it is knocked down, 200 points must be deducted from the total points obtained so far by the athlete.

[OR]

The Joker is not part of the main course. After the fixed time has expired, the bell is rung to end the athlete's round. The athlete must cross the finishing line to have his time recorded he then has 20 seconds in which to attempt the Joker once. Only one attempt at the joker is allowed. Two-hundred points are awarded if this obstacle is jumped correctly, but if it is knocked down 200 points must be deducted from the total points obtained by the athlete.

A **RESCUE RELAY** competition is run under Table C. 2 horse-rider combinations compete as a team. In these Competitions the first Athlete jumps his round and having taken the last obstacle the, next Athlete starts his round and so on. As soon as the Horses' forefeet of his team member jumping the last obstacle have reached the ground, the next Athlete may jump his first obstacle.
